

<b>GIORGIO GRAESAN</b> and Friends	<b>TECHNICAL SHEET</b>  <b>CERA DEL VECCHIO</b>	Code	TDS1013_01
		Revision	01
		Date	29/10/2025

## 1. DESCRIPTION

CERA DEL VECCHIO is an all-natural emulsion of beeswax and soap. Its application makes walls shiny and increases water repellency, without significantly altering their breathability. Its ability to penetrate pores makes them easier to wash, more resistant to aggressive agents, and more resistant to abrasion.

## 2. USE

CERA DEL VECCHIO is suitable for application on lime-based interior wall coverings.

## 3. PREPARING THE SUBSTRATE

Allow the surface to be treated to dry for at least 48 hours.

## 4. METHOD OF APPLICATION

Before use, mix the product until you obtain a smooth cream.

CERA DEL VECCHIO should be applied to the entire wall, working in small portions, about half a square meter at a time, using our PE 7 sponge. Dip the sponge in the can and empty it before applying a light layer, until the surface no longer absorbs any more product. Avoid leaving excess product on the surface.

After 10-30 minutes, the time interval depends on the environmental conditions, polish with our dry cloth or with a polisher equipped with a wool polishing cap.

## 5. CLEANING THE TOOLS

Tools should be cleaned immediately after use with water.

## 6. CLEANING THE FINISHED PRODUCT

Lime products treated with CERA DEL VECCHIO can be cleaned with LATTE DETERGENTE (diluted 50 ml in 1 litre of water).

## 7. SAFETY RECOMMENDATIONS AND RISK IDENTIFICATION

Causes severe eye injuries. Causes skin irritation. Use the product according to current hygiene and safety regulations. After use do not disperse the containers in the environment. Allow the residues to dry well and treat them as special waste. Keep out of the reach of children. If swallowed, seek medical advice immediately and show the healthcare operator the container or label. Do not dispose of residue in sewers, waterways and soil.

For further information, see the safety data sheet available on the website: [www.giorgiograesan.it](http://www.giorgiograesan.it)

TECHNICAL CHARACTERISTICS: APPLICATION	
Dilution	Product is ready for use
Mixing	Always mix before use
Colouring	Not provided
Tools	PE 7 sponge and cloth (PANNO)
Primer	Not provided
Conditions of application	From +10°C to +35°C with relative humidity < 85%
Number of coats	1 or more depending on your needs
Drying time	Protect within 12 hours after application
Protection	Not provided
Washability	LATTE DETERGENTE

<b>GIORGIO GRAESAN</b> and Friends	<b>TECHNICAL SHEET</b>  <b>CERA DEL VECCHIO</b>	Code	TDS1013_01
		Revision	01
		Date	29/10/2025

<b>TECHNICAL CHARACTERISTICS: COVERAGE</b>	
CERA DEL VECCHIO	50 m <sup>2</sup> /liter

<b>TECHNICAL CHARACTERISTICS: PRODUCT</b>	
Composition	High pressure emulsified polypropylene waxes
Specific weight	0.98 ± 0.03 kg/liter
pH	6.5- 7
EU limit value (Directive 2004/42/EC) Cat. A/l: decorative effect coatings (water-borne): 200 g/l	Maximum VOC content 0.0 g/l
Storage conditions	Keep in tightly sealed container, even after use and after cleaning the sides and lid of the tin, in a cool, dry place at temperatures between +10°C and +30°C
Packaging	1 – 2.5 liters
