1. DESCRIPTION

LA CASA DEI SOGNI is an acrylic paint that is easy and intuitive to apply. It is spread with the palm of the hand covered with our PE6 glove. The effect obtained is that of an old wall consumed by time and wear.

2. USE

LA CASA DEI SOGNI can be used on any properly insulated interior surface.

3. PREPARING THE SUBSTRATE

Proper preparation of the substrate is essential for a perfect finish. Therefore, eliminate any peeling or crumbling paint or plaster, taking care to wash or brush any mould or dust. Before applying PRIMUS SABBIA, the surface must always be properly cohesive, otherwise, proceed with an insulating bonding agent, recommended especially in the case of plasterboard walls.

If applying on tiles, smooth out any wide grout lines by carefully grouting with PRIMUS AGGRAPPANTE (see the relevant technical data sheet), then apply a coat of PRIMUS SABBIA.

4. METHOD OF APPLICATION

LA CASA DEI SOGNI is ready for use. Colour by pouring the COLOURING ADDITIVE, previously mixed, in the quantity indicated in the catalogue and mix until the colour is completely homogeneous, taking care not to leave uncoloured product on the bottom or on the sides of the tin.

Wet generously our fur glove with the product. Start distributing the product over the entire wall with an unorganized movement of the palm of your hand. Keep the tip of the glove “unloaded” in the corners. If you want to “age” your work, go over it lightly with a damp glove after 15-30 minutes, creating the original antique stains. If you want greater uniformity, go over it again with the same product.

5. CLEANING THE TOOLS

Clean **LA CASA DEI SOGNI** off tools by rinsing with water.

6. CLEANING THE FINISHED PRODUCT

After 48 hours **LA CASA DEI SOGNI** can be further protected by applying pure VETRO OPACO, VETRO LUCIDO, VETRO SATINATO or IPERVETRO (see the relevant technical sheets).

LA CASA DEI SOGNI can be washed, using LATTE DETERGENTE (diluted 50 ml in 1 litre of water).

7. SAFETY RECOMMENDATIONS AND RISK IDENTIFICATION

The product does not require labelling according to current regulations. Use and store according to current health and safety regulations; after use, do not dispose of containers to the environment; let residue dry thoroughly and handle as special waste. Keep out of the reach of children. If swallowed, seek medical advice immediately and show this container or label. Do not empty into drains, waterways or soil.
