

<b>GIORGIO GRAESAN</b> and Friends	TECHNICAL SHEET	Code	TDS2100_00
	<b>CREA IL TUO UNIVERSO</b>	Revision	00
		Date	03/09/2020

## 1. DESCRIPTION

CREATE YOUR UNIVERSE is a single-component, opaque, water-based paint that glows in the dark, creating an extraordinary starry sky when exposed to direct light. For greater illumination, we recommend using a special ultraviolet neon lamp to add to your existing lighting system.

## 2. USE

Particularly suitable for decorating ceilings and interior walls of any room.

## 3. PREPARING THE SUBSTRATE

Proper substrate preparation is essential for a successful finish. Remove any loose or flaking paint or plaster, taking care to wash or brush off any mold or dust.

Before applying PRIMUS SABBIA, the surface must be well bonded; otherwise, apply an insulating primer, especially recommended for plasterboard walls. When applying to tiles, after degreasing the wall with denatured ethyl alcohol, smooth any large joints with a first coat of PRIMUS AGGRAPPANTE, let it dry, then apply a smooth, even coat of PRIMUS AGGRAPPANTE using a KIT/I stainless steel trowel.

If you want a completely smooth surface, once the substrate is dry, we recommend applying a suitable smoothing filler and an insulating primer. At this point apply PRIMUS SABBIA, which can be coloured according to the colour table in this technical data sheet, to increase the depth and uniformity of the colour.

## 4. METHOD OF APPLICATION

CREATE YOUR OWN UNIVERSE is not ready-to-use; it must be diluted with water up to a maximum of 10%. On ceilings, apply the product with a medium-haired roller, applying a second coat if necessary. On walls, apply with a brush, recommended for greater thickness and longer-lasting "star" effects.

## 5. CLEANING THE TOOLS

Clean the tools with water immediately after use.

## 6. PROTECTION AND CLEANING

Dopo 24 ore CREA IL TUO UNIVERSO può essere maggiormente protetto applicando con il rullo PE 13 una mano di VETRO LUCIDO puro. Si ottiene così una buona idrorepellenza e integrale lavabilità della parete, usando LATTE DETERGENTE (diluito 50 ml in 1 litro di acqua).

## 7. SAFETY RECOMMENDATIONS AND RISK IDENTIFICATION

The product does not require labelling according to current regulations. Use and store according to current health and safety regulations; after use, do not dispose of containers to the environment; let residue dry thoroughly and handle as special waste. Keep out of the reach of children. If swallowed, seek medical advice immediately and show this container or label. Do not empty into drains, waterways or soil.

For more information, see safety data sheet available on: [www.giorgiograesan.it](http://www.giorgiograesan.it)

<b>GIORGIO GRAESAN</b> and Friends	<b>TECHNICAL SHEET</b>  <b>CREA IL TUO UNIVERSO</b>	Code	TDS2100_00
		Revision	00
		Date	03/09/2020

<b>TECHNICAL CHARACTERISTICS: APPLICATION</b>	
Dilution	Dilute with 10% water
Mixing	Always mix before use
Colouring	84 colours in the catalogue
Tools	PE 15 roller or PE 10 brush
Primer	PRIMUS SABBIA (white or colored)
Conditions of application	From +10°C to +35°C with relative humidity < 85%
Number of coats	1 or 2
Drying time	Each coat dries in 6 - 8 hours at 20°C
Curing time	24 – 36 hours at 20°C
Protecting	VETRO LUCIDO (one coat) with PE 13 Roller
Washability	Good washability. Full wash with LATTE DETERGENTE if protected with VETRO LUCIDO

<b>CARATTERISTICHE TECNICHE: CONSUMI</b>	
PRIMUS SABBIA	6 – 7 m <sup>2</sup> /litre
CREA IL TUO UNIVERSO	3 – 4 m <sup>2</sup> /litre for each coat
VETRO	7 – 8 m <sup>2</sup> /litre

<b>TECHNICAL CHARACTERISTICS: COVERAGE</b>					
PRIMUS SABBIA			CREA IL TUO UNIVERSO		
COLOUR	LT. 5	LT. 1	COLOUR	LT. 5	LT. 1
P2	250 ml	50 ml	U4	20 ml	4 ml
P4	20 ml	4 ml	U6	2.5 ml	0.5 ml

<b>CARATTERISTICHE TECNICHE: PRODOTTO</b>	
Composition	Acrylic copolymer in aqueous emulsion, additives, fillers and prismatic fragments
Specific weight	1.70 Kg/litre
EU limit value (Directive 2004/42/EC) Cat. A/I: decorative effect coatings (water-borne): 200 g/l	Maximum VOC content 3.00 g/l
Storage conditions	Keep in tightly sealed container, even after use and after clearing the sides and lid of the tin, in a cool, dry place at temperatures between +5°C and +30°C
Packaging	1 – 5 litres
