

GIORGIO GRAESAN and Friends	TECHNICAL SHEET ORO BIANCO	Code	TDSOROBIANCO_00
		Revision	00
		Date	08/01/2024

1. DESCRIPTION

It is a water-based decorative finish with **Metallic Powders and Resins**, which reproduces the **METALLIC SILVER** effect even on large surfaces.

2. USE

It can be applied over lime-based products such as SEGUI IL TUO ISTINTO and MARMORINO 2020, or over acrylic primers. It can be applied with a sponge, brush, roller, or even a steel spatula, depending on the desired effect. Just one coat provides excellent shine, coverage, adhesion, and washability.

3. PREPARING THE SUBSTRATE

Ideal as a finish to be applied directly on PIETRA SPACCATA, PIETRA ZEN, PIETRA BAMBOO, PIETRA LEVIGATA or MARMORINO 2020.

In the case of other surfaces, proceed with a skimming and smoothing with stucco, isolate with an insulating primer, then apply ORO BIANCO.

4. METHOD OF APPLICATION

The product lends itself to multiple application methods and the use of various tools depending on the desired finish. Below are the most common ones, but they are not intended to be binding.

On PIETRA SPACCATA, PIETRA ZEN and PIETRA BAMBOO it can be applied with the PE 3 brush, if deemed appropriate, go over it again while the product is still fresh with the PE 7 sponge to make the application uniform and make the surface more reflective.

On smooth finishes such as PIETRA LEVIGATA and MARMORINO 2020 apply with a PE 13 roller and then go over it with the KIT/NUDO stainless steel trowel, to flatten, uniform and make the surface more reflective.

5. CLEANING THE TOOLS

Clean the tools with water immediately after use.

6. CLEANING THE FINISHED PRODUCT

The product is already washable, without any additional protection, using LATTE DETERGENTE (diluted 50 ml in 1 litre of water).

7. SAFETY RECOMMENDATIONS AND RISK IDENTIFICATION

The product does not require labelling according to current regulations. Use and store according to current health and safety regulations; after use, do not dispose of containers to the environment; let residue dry thoroughly and handle as special waste. Keep out of the reach of children. If swallowed, seek medical advice immediately and show this container or label. Do not empty into drains, waterways or soil.

GIORGIO GRAESAN and Friends	TECHNICAL SHEET ORO BIANCO	Code	TDSOROBIANCO_00
		Revision	00
		Date	08/01/2024

TECHNICAL CHARACTERISTICS: APPLICATION	
Dilution	Product is ready for use; may be diluted as needed
Mixing	Always mix before use
Colouring	Base color SILVER
Tools	PE3 Brush – PE13 Roller – PE7 Sponge – KIT/NUDO Trowel
Primer	
Conditions of application	From +10°C to +35°C with relative humidity < 85%
Number of coats	1 or 2 depending on the support to be protected
Drying time	6 - 8 hours at 20°C
Drying time 2 nd coat	12 hours at 20°C
Curing time	24 hours at 20°C
Protecting	
Washability	Full wash with LATTE DETERGENTE if protected with VETRO

TECHNICAL CHARACTERISTICS: COVERAGE	
ORO BIANCO	10 m ² /litre but it may vary depending on the surface

TECHNICAL CHARACTERISTICS: PRODUCT	
Composition	Acrylic copolymer in aqueous emulsion, additives, metal fillers
Specific weight	1.10 ± 0.05 Kg/litre
pH	> 8.0 – 8.5 after 30 days
EU limit value (Directive 2004/42/EC) Cat. A/I: decorative effect coatings (water-borne): 200 g/l	Maximum VOC content 4.85% - 53.35 g/l
Storage conditions	Keep in tightly sealed container, even after use and after cleaning the sides and lid of the tin, in a cool, dry place at temperatures between +5°C and +30°C
Packaging	62 ml – 750 ml

Giorgio Graesan & Friends guarantees that the information in this sheet is provided to the best of its experience and its technical and scientific knowledge, however cannot assume any responsibility for the results obtained with their use as the conditions of application are beyond its control. We recommend always checking the actual suitability of the product for each specific case. This sheet nullifies and replaces any previous version.
